

**Thoughts of INSPIRATION of
Engineer – Statesman,
Bharat Ratna Sir M Visvesvaraya
The Institution of Engineers (India)**

- T** – **T**he way to build a nation is to build a good citizen. The majority of the citizens should be efficient of good character and possess a reasonably high sense of duty.
- H** – **H**ard work performed in a disciplined manner will in most cases keep the worker fit and also prolong his life.
- E** – **E**fficient managers, well equipped industries, trained technologists and skilled workmen constituted the true wealth of the nation.
- I** – **I**f the intelligence of our people is kept undeveloped, skill untrained, activities unstimulated, the standard of living will remain low and the country will continue to be populated by ignorant masses.
- N** – **N**ation wide thinking, nation wide planning and nation wide action are the three great essentials to prevent nation wide crisis for future generations to struggle through.
- S** – **S**uccess in life may be attributed to rigorous self discipline, punctuality, regular habits and systematic work.
- T** – **T**o make our country great, self supporting and strong, work hard , work harder work with efficiency, work in a co operative spirit and work with a team spirit.
- I** – **I**ncreasingly efficient work, progressively harder work, periodically planned and disciplined work, courtesy towards fellow workers and servants are the four point programme for the national reconstruction of India.
- T** – **T**hink and act Institutionally, Think in terms of nation, Practice self help, Practice team work, Cultivate team work, Know that knowledge is power, Increase production, Restrict import , Support Indian Industries, Maintain efficient standards are the Ten Commandments for the efficiency of the citizens.
- U** – **U**nemployment and poverty would be considerably diminished, the people would be reaping benefits of planned development and well set in its march on the path of progress and prosperity.
- T** – **T**he secret of long life and health; “Hard work, disciplined habits, modesty, in luxury, contentment and cheerfulness”.

- I** – **I**ncreased efficiency, through modernisation and work are the gospel that should be preached and practiced. Ease-loving nature, apathy and slackness are the curses.
- O** – **O**ne of the main objects of education is to train the recipient for the battle of life. The greatest draw back in education is the omission to give practical training in the use of machine tools needed for Industrialisation.
- N** – **N**o great improvement can be affected without definite ideals and organizations. “Investigate, educate, organize” should be our watch words if we are to quicken the life pulse of the people and train them for a larger and fuller life.
- O** – **O**bserving the conditions, resolved to plan, promote and encourage development chiefly in education, industries, commerce and public works to enable the people to work well, earn well and live well.
- F** – **F**ive year plans have come to be popular on account of the known revolutionary developments which may also be revised as changes in circumstances necessitate from year to year.
- E** – **E**ducation is the sovereign remedy for all economic ills. Progress in every country depends mainly on the education of its people, without education, we are a nation of children.
- N** – ‘**N**ation Building’, ‘Rural Industrialisation’, ‘Reconstructing India’, “Planned Economy for India” were the publications mainly responsible to make the people of India plan conscious.
- G** – **G**enius is 10% inspiration and 90% perspiration, ‘plan your work and work your plan’, God help those who help themselves. Always work hard, ‘Industrialise or Perish’. Note books and pencils inseparable companions etc, were the guiding slogans and principles.
- I** – **I**mprove the conditions of the country so as to make it economically prosperous, scientifically progressive, industrially sound and educationally well advanced.
- N** – **N**ational planning commission will use all its powers to ensure that country is going in economic strength and National efficiency from stage to stage.
- E** – **E**fficiency, Character, Planned and disciplined and efficient work in the long run lead to high working capacity, comfortable living and longevity.
- E** – **E**very man who has become great owes his achievements to incessant toil, and the philosophy in India is different, it lacks ambition and hustle.
- R** – **R**emember the race is for the skilled and the strong, we cannot hope to succeed if we continue to work with antiquated tools and follow old fashion business methods.
- S** – **S**uccess in any profession or trade is due largely to the capacity individuality, integrity, Foresight, hard work of the person who undertakes it and it depends on man’s own exertions.

- I** – **I**f you buy what you do not need, you will need what you cannot buy and therefore the person who spends more than he earns is a fool.
- N** – **N**o one person can shape the life of another. Your success and happiness depends upon your own self. Think for yourself and have a plan of life.
- D** – **D**o not agree to do any work unless you are sure you have courage to do it. But when you expect a task, do not ever fail to carry it out. Every thing should be done on time.
- I** – **I**n evolving a keen economic organization for our industrial development there should be neither too much of autocracy nor too much of democracy.
- A** – **A** person who did not look after himself by keeping his dress neat could not be expected to be efficient in his duties. Therefore to be well dressed is to be well disciplined.
